

TRUMPF panel cutter

Efficient cutting - easy and precise

Panel cutter TPC 150 150-2 V 80 / V 150

- Precise, right-angled cuts
- Cuts inner contours and recessed areas without starter drilling
- Cuts already mounted panels
- Complete cutting from one side
- Highest level of compliance with safety standards
- No additional processing needed

Applications

- Industrial halls (roofs and walls)
- Refrigeration facilities
- Clean room walls
- Container construction

Technical Data

		
TPC 150-2 V 80 / V150		
Isolationsmaterial	Polyurethane foam	Polyurethane foam
Max. panel thickness	80 mm	150 mm
Single sheet thickness for steel 400 N/mm ²	0.9 mm	0.9 mm
Operation speed	4 m/min	4 m/min
Smallest possible insertion	260 x 260 mm	340 x 340 mm
Rated input power	1400 W	1400 W
Weight	10.2 kg	10.4 kg
