

Fast, clean, safe

### Slat cleaner TruTool TSC 2 cleans

- quickly and economically
- easily and with little effort
- safely and quietly

### Areas of application

- Cleans the slat of all conventional laser cutting machines
- Suitable for steel and copper slats

[→ Flyer \(PDF-Download\)](#)

	 TruTool TSC2
Slat thickness	2.5 - 3.9 mm
Max. Slag thickness	15 (25)*mm
Min. spacing between support slats	33.5 mm
Working speed	8 - 10 m/min
Rated input power	1400 W
Weight	13 kg

\*The max. slag thickness which can be cleaned is affected by the following parameters:

- Percentage on stainless steel
- Cutting gas used
- Laser capacity
